

MIA CARRILLO

Orlando, FL • (239) 326-1184 • miacarrillobusiness@gmail.com

Portfolio: mialc.github.io/mia-portfolio • github.com/mialc • linkedin.com/in/mialcarrillo

IT student and developer focused on front-end web development and product design. Built and launched a live iOS app as the solo founder of Recru, and build responsive websites using HTML, CSS, Bootstrap, and JavaScript. Strong project management and leadership background from leading large cross-functional teams.

EDUCATION

University of Central Florida — Bachelor of Science, Information Technology

Expected Graduation: Spring 2027 • Orlando, FL

SKILLS

Design & Prototyping: Figma, Unity UI Toolkit, wireframing, high-fidelity prototyping, UX research, user interviews

Technical: HTML, CSS, JavaScript, Bootstrap, PHP, WordPress, AWS, C, Java, C#, Git/GitHub, VS Code, responsive design

Product & Project Management: Agile workflows, stakeholder communication, iterative development, team collaboration, sprint planning

PROJECTS

Recru — Founder & Developer | *Live on the App Store*

- Built and launched a live iOS app that helps students navigate the sorority recruitment process, handling design, development, and the App Store release
- Grew the user base well ahead of the prior year by partnering directly with university Panhellenic councils, including UF, USF, and SDSU, to promote the app to incoming students
- Run all ongoing development, user research, and growth planning as the only person building the product

EXPERIENCE

Front-End Web Development Intern — U.S. Hunger | *Longwood, FL*

2026 – Present

- Build responsive, on-brand web pages using HTML, CSS, Bootstrap, and JavaScript
- Designed and built a portfolio site as a Phase 2 project deliverable
- Developing WordPress themes with PHP and deploying sites on AWS

Software Engineering Intern — Zuleris Interactive | *Orlando, FL*

February 2025 – May 2025

- Built interactive UI systems for a military signal-identification trainer using Unity & C#
- Created modular prefabs and animation controllers, reducing future screen development by 30%
- Presented sprint demos, gathered usability feedback, and improved interface clarity

Student Assistant (Federal Work-Study) — UCF L3Harris Engineering Center

August 2024 – Present | Orlando, FL

- Coordinated intake and distribution of senior-design parts and equipment for 50+ project teams
- Maintained communication between vendors and students; supported inventory and facility events

LEADERSHIP & ORGANIZATIONS

Vice President of Recruitment, UCF Panhellenic (2026 – Present)

- Led and executed a large-scale formal recruitment process serving 800–900 potential new members and 1,900+ active sorority members. Oversee recruitment operations across 12 chapters

UCF Upstarts Venture Incubator Program (2026 – Present)

- Collaborated with mentor and cohort to develop and refine my startup app Recru.
- Placed 17th of 60+ teams (top 25%) in the UCF Joust competition and served as a semifinals alternate
